New York, May 10.—The active liquidation of the two previous days in the stock market was relaxed today, leaving the largely extended short interest on the defensive. Vesterday's final recovery gave an impetus to the demand for Americans on the London market, which lifted prices for the opening here. There was some slight demand, through commission houses, showing that there is an element which is watching the market closely for indications that it has turned. The opening strength from these causes quickly gave way under the attack by the bears, who used the statement of St. Paul's earnings for the first week in May. This statement, showing a decrease from last year for the first time in many months, did, in fact, have a strong influence on sentiment. It was a forcible reminder of the fears which have found expression for some time past in Wall street that the reaction in the iron market and in general business would inevitably lead to a falling off in raifroad earnings. A continuance of labor difficulties at various points caused some continued uneastness, and the bears professed apprehension over the sessimistic tone of Lord Salisbury's speech last night. Quite liberal burying for London account served to counteract the last numed argument, the arbitrage houses estimating the buying for London account served to counteract the last numed argument. The counteract has the force of the fact of the bears from bersistent heaviness in Sugar. Prices very generally drifted back to last night's level or below, but at no time during the day did the pressure of lendation become severe, and the bears found difficulties. The upward movement in the trunk lines was notably that in Missouri Pacific, the san fall pools to resume operations, notably that in Missouri Pacific, the san fall pools to resume operations, notably that in Missouri Pacific the san notably that in Missouri Pacific in the san fall pools to resume operations of the severe and vire letting stocks whenever they blid for them. The absence of pressure prompted

Wheat, Corn, Oats, Provisions Lard, Short Ribs, &c.

Chicago, May 10.—Apprehension regarding the Government crop report curtailed trade in the wheat pit today, and the market ruled exceedingly dull, with almost no range. July closed a fraction lower. After a weak opening, corn turned strong on active buying, and July closed with a net sain of 3. Oats closed unchanged. Provisions ruled strong.

## The Cotton Markets.

NEW YORK COTON MARKET.

New York, May 10.—Interest in the cotton market did not take a substantial form today. Shorts were confused on the opening by much larger spot sales in the English market than anticipated, and before contidence was restored prices had been advanced slightly by covering, together with light buying for foreign account. The uneasiness was short lived, however, and before mildday not only had the opening advance of 1 and 2 points been wived out, but a net loss of an equal amount had heen scored. Early foreign buying orders were followed by selling of the new crop positions. From time to time Wall street bought, and thus checked a tendency to weakness. Private cables asserted that the big sales of spot cotton at Liverpool were due to offerings of very considerable cotton at former seiling prices. Crop and weather conditions were bearish, but statistics, on the other hand, were decidedly in favor of the buil crowd. Though quiet, Southern spot markets were reported to be holding their own in the matter of prices. The closs was quiet, I point higher to 1 point net lower.
